(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended June 29, 2019
or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-12696

Plantronics, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

77-0207692

(I.R.S. Employer Identification No.)

345 Encinal Street

Santa Cruz, California 95060

(Address of principal executive offices)

(Zip Code)

(831) 426-5858

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, \$0.01 par value	PLT	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 31, 2019, 39,575,910 shares of the registrant's common stock were outstanding.

Part I -- FINANCIAL INFORMATION

Management's Discussion and Analysis of Financial Condition and Results of Operations

CERTAIN FORWARD-LOOKING INFORMATION:

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 ("Securities Act") and Section 21E of the Securities Exchange Act of 1934 ("Exchange Act"). Forward-looking statements may generally be identified by the use of such words as "anticipate," "believe," "could," "expect," "intend," "may," "plan," "potential," "shall," "will," "would," or variations of such words and similar expressions, or the negative of these terms. Specific forward-looking statements contained within this Form 10-Q include, but are not limited to, statements regarding (i) our beliefs regarding the UC&C market, market dynamics and opportunities, and customer and partner behavior as well as our position in the market, (ii) our expectations for the impact of the Acquisition as it relates to our strategic vision and additional market opportunities for our combined hardware and services offerings, as well as our plans and expectation for the integration of the operations of Polycom, (iii) our beliefs regarding future enterprise growth drivers, (iv) our expectations regarding the impact of UC&C on headset adoption and how it may impact our investment and partnering activities, (v) our expectations for new and next generation product and services offerings, (vi) our intentions regarding the focus of our sales, marketing and customer services and support teams, (vii) our expenses, including research, development and engineering expenses and selling, general and administrative expenses, (xi) fluctuations in our cash provided by operating activities as a result of various factors, including fluctuations in revenues and operating expenses, the timing of compensation-related payments including stock based compensation, timing of product shipments, accounts receivable collections, inventory and supply chain management, and the timing and amount of taxes and other payments, (xii) our future tax rate and payments related to unrecognized tax benefits, (xiii) our anticipated range of capital expenditures for the remainder of Fiscal Year 2020 and the sufficiency of our cash, cash equivalents, and cash from operations to sustain future operations and discretionary cash requirements, (xiv) our ability to pay future stockholder dividends, (xv) our ability to draw funds on our credit facility as needed, (xvi) the sufficiency of our capital resources to fund operations, and other statements regarding our future operations, financial condition and prospects, and business strategies. Such forward-looking statements are based on current expectations and assumptions and are subject to risks and uncertainties that may cause actual results to differ materially from the forward-looking statements. Factors that could cause actual results and events to differ materially from such forward-looking statements are included, but not limited to, those discussed in this Quarterly Report on Form 10-Q; in Part I, "Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended March 31, 2019, filed with the Securities and Exchange Commission ("SEC") on May 17, 2019; and other documents we have filed with the SEC. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by applicable law. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements.

OVERVIEW

We are a leading global designer, manufacturer, and marketer of integrated communications and collaboration solutions that span headsets, open SIP desktop phones, audio and video conferencing, cloud management and analytics software solutions, and services. Our major product categories are Enterprise Headsets, which includes corded and cordless communication headsets; Consumer Headsets, which includes Bluetooth and corded products for mobile device applications, personal computer and gaming; Voice, Video, and Content Sharing Solutions, which includes open SIP desktop phones, conference room phones, and video endpoints, including cameras, speakers and microphones. All of our solutions are designed to work in a wide range of Unified Communications & Collaboration ("UC&C"), Unified Communication as a Service ("UCaaS"), and Video as a Service ("VaaS") environments. Our RealPresence collaboration solutions range from infrastructure to endpoints and allow people to connect and collaborate globally and naturally. In addition, we offer comprehensive support services including support for our solutions and hardware devices, as well as professional, hosted, and managed services. We continue to operate under a single operating segment.

We sell our Enterprise products through a high-touch sales team and a well-developed global network of distributors and channel partners including value-added resellers, integrators, direct marketing resellers, service providers, and resellers. We sell our Consumer products through both traditional and online consumer electronics retailers, consumer product retailers, office supply distributors, wireless carriers, catalog and mail order companies, and mass merchants. We have well-established distribution channels in the Americas, Europe, Middle East, Africa, and Asia Pacific where use of our products is widespread.

Compared to the first quarter of Fiscal Year 2019 total net revenues increased 102% to \$447.8 million; the increase in total net revenues is primarily related to our acquisition of Polycom, Inc. ("the Acquisition") which was completed on July 2, 2018. As a result of purchase accounting, a total of \$12.2 million of deferred revenue that otherwise would have been recognized in the first quarter of Fiscal Year 2020 was excluded from first quarter revenue of \$447.8 million.

The table below summarizes net revenues for the three months ended June 30, 2019 and 2018 by product categories:

(in thousands, except percentages)	Three Months Ended		Increase (Decrease)	
	June 30,			
	2019	2018		
Enterprise Headsets	\$ 175,084	\$ 167,642	\$ 7,442	4.4 %
Consumer Headsets	43,566	53,667	(10,101)	(18.8)%
Voice ¹	103,847	—	103,847	100.0 %
Video ¹	60,248	—	60,248	100.0 %
Services ²	65,022	—	65,022	100.0 %
Total	\$ 447,767	\$ 221,309	\$ 226,458	102.3 %

¹ Voice and Video product net revenues presented net of fair value adjustments to deferred revenue of \$0.6 million.

² Services net revenues presented net of fair value adjustments to deferred revenue of \$11.6 million.

We reported a net loss of \$44.9 million and an operating loss of \$28.8 million for the first quarter of Fiscal Year 2020. We reported a net income of \$14.5 million and an operating income of \$20.6 million for the first quarter of Fiscal Year 2019. The decrease in our results from operations is primarily due to \$45.3 million of amortization of purchased intangibles and \$20.4 million of post-Acquisition integration related expenses incurred during the first quarter of Fiscal Year 2020. We will continue to work on integrating Polycom into our business in order to streamline our operations and realize synergies from the combined companies.

Our strategic initiatives are primarily focused on driving long-term growth through our end-to-end portfolio of audio and video endpoints, including headsets, desktop phones, conference room phones, and video collaboration solutions. The Acquisition positions us as a global leader in communications and collaboration endpoints, target the faster-growing market categories, such as the Huddle Room for video collaboration, allows us to capture additional opportunities through data analytics and insight services across a broad range of communications endpoints, and better positions us with our channel partners, customers and strategic alliance partners to pursue comprehensive solutions to communications challenges in the marketplace, each of which we believe will drive long-term revenue growth.

During the quarter we focused on integration activities which included various systems integrations for the combined company. We also rationalized our sales channel and introduced a new consolidated distribution agreement with our partners globally. These efforts are expected to decrease redundancies and leverage our competitive advantages for the benefit of our partners and end customers. We believe the changes have resulted in short-term disruptions in our operations which will be resolved as sales and supply partners adjust to the changes.

Within the market for our Enterprise Headsets, we anticipate the key driver of growth over the next few years will be the continued adoption of UC&C solutions. We believe enterprises are increasing their adoption of UC&C systems to reduce costs, improve collaboration, and migrate to more capable and flexible technology. We expect the growth of UC&C solutions will increase overall headset adoption in enterprise environments, and we believe most of the growth in our Enterprise Headsets product category over the next three years will come from headsets designed for UC&C.

Revenues from our Consumer Headsets are seasonal and typically strongest in our third fiscal quarter, which includes the holiday shopping season. Other factors that directly impact performance in the product category include product life cycles (including the introduction and pace of adoption of new technology), market acceptance of new product introductions, consumer preferences and the competitive retail environment, changes in consumer confidence and other macroeconomic factors. In addition, the timing or non-recurrence of retailer product placements can cause volatility in quarter-to-quarter results.

In an effort to align our strategy and focus on our core enterprise markets, we announced on May 7, 2019 that we intend to evaluate strategic alternatives for our Consumer Headset products. We have not yet determined the timing, structure, or financial impact of any potential transaction.

We remain cautious about the macroeconomic environment, based on uncertainty around trade and fiscal policy in the U.S. and internationally and broader economic uncertainty in many parts of Europe and Asia Pacific, which makes it difficult for us to gauge the economic impacts on our future business. We continue to monitor our expenditures and prioritize expenditures that further our strategic long-term growth opportunities.

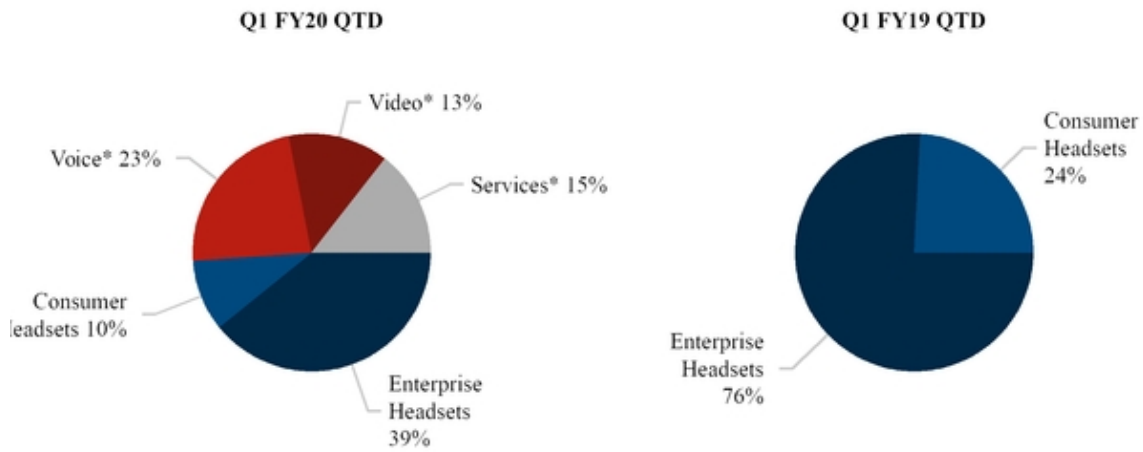

RESULTS OF OPERATIONS

The following graphs display net revenues by product category for the three months ended June 30, 2019 and 2018:

Net Revenues (in millions)

Revenue by Product Category (percent)

* These product categories were created as a result of the Acquisition, See Note 3, Acquisition, of the accompanying notes to condensed consolidated financial statements.

Total net revenues increased in the three months ended June 30, 2019 compared to the prior year periods due primarily to the Acquisition as well as higher revenues within our Enterprise Headset product category partially offset by declines in our Consumer Headset product category. The growth in our Enterprise Headset category was driven by UC&C product revenues and the decline in our Consumer Headset category was driven by Gaming and Mono product revenues.

Geographic Information (in millions) Revenue by Region (percent)

Compared to the same prior year period, U.S. net revenues for the three months ended June 30, 2019 increased due primarily to the Acquisition, as well as higher revenues within our Enterprise Headsets product category driven by growth in UC&C revenues partially offset by continued declines in our non-UC&C product revenues. Consumer Headsets product revenues were down, driven by declines in sales of our Gaming products.

International net revenues for the three months ended June 30, 2019 increased from the same prior year period due primarily to the Acquisition as well as growth in our Enterprise Headsets category driven by UC&C product sales. This growth was partially offset by declines in our Consumer Headset product revenues as a result of declines in sales of our Gaming and Mono products.

During the three months ended June 30, 2019, changes in foreign exchange rates negatively impacted net revenues by \$3.9 million, net of the effects of hedging, compared to a \$6 million favorable impact on net revenues in the prior year period.

COST OF REVENUES AND GROSS PROFIT

Cost of revenues consists primarily of direct and contract manufacturing costs, warranty, freight, depreciation, duties, charges for excess and obsolete inventory, royalties, and overhead expenses.

(in thousands, except percentages)	Three Months Ended		Increase	
	June 30,		(Decrease)	
	2019	2018		
Total net revenues	\$ 447,767	\$ 221,309	\$ 226,458	102.3%
Cost of revenues	235,121	111,466	123,655	110.9%
Gross profit	\$ 212,646	\$ 109,843	\$ 102,803	93.6%
Gross profit %	47.5%	49.6%		

Compared to the same prior year period, gross profit as a percentage of net revenues decreased in the three months ended June 30, 2019, due primarily to \$30.0 million of amortization of purchased intangibles and \$12.2 million of deferred revenue fair value adjustment, respectively. See Note 3, *Acquisition*, accompanying notes to condensed consolidated financial statements. These increased costs were partially offset by material cost reductions.

There are significant variances in gross profit percentages between our higher and lower margin products including Polycom products acquired through the Acquisition; therefore, small variations in product mix, which can be difficult to predict, can have a significant impact on gross profit as a percentage of net revenues. Gross profit percentages may also vary based on distribution channels, return rates, and other factors.

OPERATING EXPENSES

Operating expenses consists primarily of research, development and engineering; selling, general and administrative; gain, net of litigation settlements and restructuring and other related charges (credits) expenses which are summarized in the table below for the three months ended June 30, 2019 and 2018:

(in thousands, except percentages)	Three Months Ended		Increase	
	June 30,		(Decrease)	
	2019	2018		
Research, development, and engineering	\$ 59,524	\$ 23,701	\$ 35,823	151%
Selling, general and administrative	163,608	64,203	99,405	155%
Gain, net of litigation settlements	(1,162)	(30)	(1,132)	3,773%
Restructuring and other related charges	19,525	1,320	18,205	1,379%
Total Operating Expenses	\$ 241,495	\$ 89,194	\$ 152,301	171%
% of net revenues	53.9%	40.3%		

Our Research, development, and engineering expenses and selling, general and administrative expenses increased during the three months ended June 30, 2019, primarily due to the inclusion of Polycom operating expenses after the Acquisition, as well as \$19.5 million of Acquisition-related integration costs and \$15.3 million of amortization of purchased intangibles incurred during the period.

Compared to the prior year period, restructuring and other related charges increased in the three months ended June 30, 2019, due primarily to restructuring actions initiated during the period to streamline the global workforce and achieve planned synergies. For more information regarding restructuring activities. See Note 10, *Restructuring and Other Related Charges*, of the accompanying notes to condensed consolidated financial statements.

INTEREST EXPENSE

(in thousands, except percentages)	Three Months Ended June 30,		Increase	
	2019	2018	(Decrease)	
Interest expense	\$ (23,932)	\$ (7,327)	\$ 16,605	226.6%
% of net revenues	(5.3)%	(1.6)%		

Interest expense increased for the three months ended June 30, 2019 primarily due to interest incurred on our Credit Facility Agreement entered into in connection with the Acquisition. See Note 9, *Debt*, of the accompanying notes to condensed consolidated financial statements.

OTHER NON-OPERATING INCOME, NET

(in thousands, except percentages)	Three Months Ended June 30,		Increase	
	2019	2018	(Decrease)	
Other non-operating income, net	\$ 333	\$ 1,996	\$ (1,663)	(83.3)%
% of net revenues	0.1%	0.9%		

Other non-operating income, net for the three months ended June 30, 2019 decreased primarily due to lower interest income as our investment portfolios were liquidated during the First Quarter of Fiscal Year 2019 to facilitate the Acquisition.

INCOME TAX EXPENSE (BENEFIT)

(in thousands except percentages)	Three Months Ended June 30,		Increase	
	2019	2018	(Decrease)	
Income (loss) before income taxes	\$ (52,448)	\$ 15,318	\$ (67,766)	(442.4)%
Income tax expense (benefit)	(7,577)	847	(8,424)	(994.6)%
Net income (loss)	\$ (44,871)	\$ 14,471	\$ (59,342)	(410.1)%
Effective tax rate	14.4%	5.5%		

The Company and its subsidiaries are subject to taxation in the U.S. and in various foreign and state jurisdictions. Our tax provision or benefit is determined using an estimate of our annual effective tax rate and adjusted for discrete items that are taken into account in the relevant period. The effective tax rates for the three months ended June 30, 2019 and 2018 were 14.4% and 5.5%, respectively.

The annual effective tax rates as of June 30, 2019 and 2018 varied from the statutory tax rate of 21% primarily due to our jurisdictional mix of income, state taxes, U.S. taxation of foreign earnings, and R&D credits.

During the quarter ended June 30, 2019, we recognized a discrete \$11.6 million tax benefit related to an intra-entity transfer of an intangible asset that will have a deferred future benefit, for which we established a deferred tax asset.

On June 7, 2019, a Ninth Circuit panel reversed the United States Tax Court's holding in *Altera Corp. v. Commissioner* and upheld the portion of the Treasury regulations issued under IRC Section 482 requiring related-party participants in a cost sharing arrangement to share stock-based compensation costs. At this time, the taxpayer is still eligible to protest the decision. We have considered the issue and have recorded a \$8.6 million discrete tax charge resulting from the cost sharing of prior stock-based compensation, partially offset by a reduction to the 2017 Tax Cuts and Jobs Act toll charge accrued in prior periods. We will continue to monitor developments related to the case and the potential impact on its consolidated financial statements.

FINANCIAL CONDITION

Operating Cash Flow (in millions)

Investing Cash Flow (in millions)

Financing Cash Flow (in millions)

We use cash provided by operating activities as our primary source of liquidity. We expect that cash provided by operating activities will fluctuate in future periods as a result of a number of factors, including fluctuations in our revenues, the timing of compensation-related payments such as our annual bonus/variable compensation plan and Employee Stock Purchase Plan ("ESPP"), integration costs related to the Acquisition, product shipments during the quarter, accounts receivable collections, inventory and supply chain management, and the timing and amount of tax and other payments.

Operating Activities

Compared to the same year ago period, net cash provided by operating activities during the three months ended June 30, 2019 decreased primarily due to cash paid for interest payments on long-term debt, integration related expenses, and restructuring activities that did not occur in the comparative period. The decrease was partially offset by higher cash collections from customers as a result of increased revenue.

Investing Activities

Net cash used for investing activities during the three months ended June 30, 2019 was primarily used for the purchase of personal property, plant and equipment.

We estimate total capital expenditures for Fiscal Year 2020 will be approximately \$40 million to \$50 million. We expect capital expenditures for the remainder of Fiscal Year 2020 to consist primarily of new information technology investments, capital investment in our manufacturing capabilities, including tooling for new products, and facilities upgrades.

Financing Activities

Net cash used for financing activities during the three months ended June 30, 2019, consisted primarily of taxes paid on behalf of employees related to net share settlements of vested employee equity awards and payment of the quarterly dividend on our common stock.

Liquidity and Capital Resources

Our primary sources of liquidity as of June 30, 2019, consisted of cash, cash equivalents, and short-term investments, cash we expect to generate from operations, and a \$100 million revolving credit facility. At June 30, 2019, we had working capital of \$214.2 million, including \$206.1 million of cash, cash equivalents, and short-term investments, compared with working capital of \$252.9 million, including \$215.8 million of cash, cash equivalents, and short-term investments at March 31, 2019. The decrease in working capital at June 30, 2019 compared to March 31, 2019 resulted from the net decrease in cash and cash equivalents and a net increase in accounts payable due to payment timing.

Table of Contents

Our cash and cash equivalents as of June 30, 2019 consisted of bank deposits with third party financial institutions. We monitor bank balances in our operating accounts and adjust the balances as appropriate. Cash balances are held throughout the world, including substantial amounts held outside of the U.S. As of June 30, 2019, of our \$206.1 million of cash, cash equivalents, and short-term investments, \$60.6 million was held domestically while \$145.5 million was held by foreign subsidiaries, and approximately 61% was based in USD-denominated instruments. During the quarter ended June 30, 2018, we sold most of our short-term investments to generate cash to fund the Acquisition on July 2, 2018. As of June 30, 2019, our remaining investments were composed of Mutual Funds.

During Fiscal Year 2019, in connection with the Acquisition, we entered into a Credit Agreement with Wells Fargo Bank, National Association, as administrative agent, and the lenders party thereto (the "Credit Agreement"). The Credit Agreement replaced our prior revolving credit facility in its entirety. The Credit Agreement provides for (i) a revolving credit facility with an initial maximum aggregate amount available of \$100 million that matures in July 2023 and (ii) a \$1.275 billion term loan facility that matures in July 2025. On July 2, 2018, the Company borrowed the full amount available under the term loan facility of \$1.245 billion, net of approximately \$30 million of discounts and issuance costs. Borrowings under the Credit Agreement bear interest due on a monthly basis at a variable rate equal to (i) LIBOR plus a specified margin, or (ii) the base rate (which is the highest of (a) the prime rate publicly announced from time to time by Wells Fargo Bank, National Association, (b) the federal funds rate plus 0.50% or (c) the sum of 1% plus one-month LIBOR) plus a specified margin. See Note 9, *Debt*, in the accompanying notes to the condensed consolidated financial statements.

On July 30, 2018, we entered into a 4-year amortizing interest rate swap agreement with Bank of America, NA. The swap has an initial notional amount of \$831 million and matures on July 31, 2022. The purpose of this swap is to hedge against changes in cash flows (interest payments) attributable to fluctuations in the contractually specified LIBOR interest rate associated with our credit facility agreement. The swap involves the receipt of floating-rate amounts for fixed interest rate payments over the life of the agreement. We have designated this interest rate swap as a cash flow hedge. The derivative is valued based on prevailing LIBOR rate curves on the date of measurement. We also evaluate counterparty credit risk when we calculate the fair value of the swap. For additional details, see Note 14, *Derivatives*, of the accompanying notes to condensed consolidated financial statements.

During Fiscal Year 2016, we obtained \$488.4 million from debt financing, net of issuance costs. The debt matures on May 31, 2023 and bears interest at a rate of 5.50% per annum, payable semi-annually on May 15 and November 15 of each year. See Note 9, *Debt*, in the accompanying notes to the condensed consolidated financial statements.

From time to time, our Board of Directors ("the Board") authorizes programs under which we may repurchase shares of our common stock in the open market or through privately negotiated transactions, including accelerated stock repurchase agreements. On November 28, 2018, the Board approved a 1 million share repurchase program expanding our capacity to repurchase shares to approximately 1.7 million shares. During the first quarter of Fiscal Year 2020, we did not repurchase any shares of our common stock. As of June 30, 2019, there remained 1,369,014 shares authorized for repurchase under the existing stock repurchase program. See Note 12, *Common Stock Repurchases*, in the accompanying notes to the condensed consolidated financial statements.

Our liquidity, capital resources, and results of operations in any period could be affected by repurchases of our common stock, the payment of cash dividends, the exercise of outstanding stock options, restricted stock grants under stock plans, and the issuance of common stock under our Employee Stock Purchase Plan ("ESPP"). The Acquisition has negatively affected our liquidity and leverage ratios. To reduce our debt leverage ratios, we expect to prioritize the repayment of the debt under the Credit Agreement.

Additionally, the Acquisition impacted our cash conversion cycle due to Polycom's use of third-party partner financing and early payment discounts to drive down cash collection cycles.

We also receive cash from the exercise of outstanding stock options under our stock plan and the issuance of shares under our ESPP. However, the resulting increase in the number of outstanding shares from these equity grants and issuances could affect our earnings per share. We cannot predict the timing or amount of proceeds from the sale or exercise of these securities or whether they will be exercised, forfeited, canceled, or expire.

On August 6, 2019, we announced that the Audit Committee of our Board declared a cash dividend of \$0.15 per share, payable on September 10, 2019 to stockholders of record at the close of business on August 20, 2019.

We believe that our current cash and cash equivalents, cash provided by operations, and the availability of additional funds under the Credit Agreement will be sufficient to fund operations for at least the next 12 months; however, any projections of future financial needs and sources of working capital are subject to uncertainty. Readers are cautioned to review the risks, uncertainties, and assumptions set forth in this Quarterly Report on Form 10-Q, including the section entitled "*Certain Forward-Looking Information*" and the risk factors set forth in our Annual Report on Form 10-K for the fiscal year ended March 31, 2019, filed with the SEC on May 17, 2019, and other periodic filings with the SEC, any of which could affect our estimates for future financial needs and sources of working capital.

OFF BALANCE SHEET ARRANGEMENTS AND CONTRACTUAL OBLIGATIONS

We have not entered into any transactions with unconsolidated entities whereby we have financial guarantees, subordinated retained interests, derivative instruments, or other contingent arrangements that expose us to material continuing risks, contingent liabilities, or any other obligation under a variable interest in an unconsolidated entity that provides us with financing and liquidity support, market risk, or credit risk support.

A substantial portion of the raw materials, components, and subassemblies used in our products are provided by our suppliers on a consignment basis. These consigned inventories are not recorded on our consolidated balance sheet until we take title to the raw materials, components, and subassemblies, which occurs when they are consumed in the production process. Prior to consumption in the production process, our suppliers bear the risk of loss and retain title to the consigned inventory. The terms of the agreements allow us to return parts in excess of maximum order quantities to the suppliers at the supplier's expense. Returns for other reasons are negotiated with the suppliers on a case-by-case basis and to date have been immaterial. If our suppliers were to discontinue financing consigned inventory, it would require us to make cash outlays and we could incur expenses which, if material, could negatively affect our business and financial results. As of June 30, 2019, and March 31, 2019, we had off-balance sheet consigned inventories of \$48.2 million and \$47.1 million, respectively.

Unconditional Purchase Obligations

We use several contract manufacturers to manufacture raw materials, components, and subassemblies for our products. We provide these contract manufacturers with demand information that typically covers periods up to 13 weeks, and they use this information to acquire components and build products. We also obtain individual components for our products from a wide variety of individual suppliers. Consistent with industry practice, we acquire components through a combination of purchase orders, supplier contracts, and open orders based on projected demand information. As of June 30, 2019, we had outstanding off-balance sheet third-party manufacturing, component purchase, and other general and administrative commitments of \$406.4 million, including the off-balance sheet consigned inventories of \$48.2 million discussed above, of which we expect to consume in the normal course of business.

Except as described above, there have been no material changes in our contractual obligations as described in our Annual Report on Form 10-K for the fiscal year ended March 31, 2019.

CRITICAL ACCOUNTING ESTIMATES

For a complete description of what we believe to be the critical accounting estimates used in the preparation of our condensed consolidated financial statements, refer to our Annual Report on Form 10-K for the fiscal year ended March 31, 2019, filed with the SEC on May 17, 2019.

Except as described above, there have been no changes to our critical accounting estimates during the three months ended June 30, 2019.

Recent Accounting Pronouncements

For more information regarding the Recent Accounting Pronouncements that may impact us, see Note 2, *Recent Accounting Pronouncements*, of the accompanying notes to the condensed consolidated financial statements.

PLANTRONICS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. BASIS OF PRESENTATION

In the opinion of management, with the exception of the adoption of ASC 842, *Leases* as discussed below, the accompanying unaudited condensed consolidated financial statements ("financial statements") of Plantronics, Inc. ("the Company") have been prepared on a basis materially consistent with the Company's March 31, 2019 audited consolidated financial statements and include all adjustments, consisting of normal recurring adjustments, necessary to fairly state the information set forth herein. Certain information and footnote disclosures normally included in financial statements prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") applicable to interim financial information and in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") have been condensed or omitted pursuant to such rules and regulations. The financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2019, which was filed with the SEC on May 17, 2019. The results of operations for the interim period ended June 30, 2019 are not necessarily indicative of the results to be expected for the entire fiscal year or any future period.

The financial results of Polycom have been included in the Company's consolidated financial statements from the date of acquisition on July 2, 2018, see Note 3, *Acquisition* for details.

The financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany balances and transactions have been eliminated.

The Company's fiscal year ends on the Saturday closest to the last day of March. The Company's current and prior fiscal years end on March 28, 2020 and March 30, 2019, respectively, and both consist of 52 weeks. The Company's results of operations for the three months ended June 29, 2019 and June 30, 2018 both contain 13 weeks. For purposes of presentation, the Company has indicated its accounting year as ending on March 31 and its interim quarterly periods as ending on the applicable calendar month end.

See Note 2, *Recent Accounting Pronouncements*, for details regarding recognition of a lease liability and corresponding right-of-use ("ROU") asset on the balance sheet of the Company's condensed consolidated financial statements pursuant to the adoption of Topic 842, *Leases* accounting guidance in the first quarter of Fiscal Year 2020.

Foreign Operations and Currency Translation

During the quarter ended June 30, 2019, as a result of a change to the Company's operating structure, the Company determined the functional currency of its China subsidiary is now the U.S. Dollar ("USD"). Assets and liabilities denominated in currencies other than USD, are re-measured at the period-end rates for monetary assets and liabilities and at historical rates for non-monetary assets and liabilities. Revenues and expenses are re-measured at average monthly rates, which approximate actual rates. Currency transaction gains and losses are recognized in other non-operating income and (expense), net.

2. RECENT ACCOUNTING PRONOUNCEMENTS

Recently Issued Pronouncements

In June 2016, the Financial Accounting Standards Board ("FASB") issued guidance regarding the measurement of credit losses on financial instruments, which changes the impairment model for most financial assets. The new model uses a forward-looking expected loss method, which will generally result in earlier recognition of allowances for losses. The guidance is effective for the Company's fiscal year ending March 31, 2021 with early adoption permitted beginning in the first quarter of Fiscal Year 2020. The Company is currently evaluating the impact the adoption of this standard will have on its consolidated financial statements and related disclosures.

Recently Adopted Pronouncement

In February 2016, the FASB issued guidance on the recognition and measurement of leases ("ASC 842"). Under the new guidance lessees are required to recognize a lease liability and a corresponding right-of-use ("ROU") asset on the balance sheet for virtually all leases, essentially eliminating off-balance sheet financing. On March 31, 2019, the Company adopted ASC 842 using the modified retrospective approach and recognized \$57.3 million in ROU assets within Other assets and \$68.5 million in lease liabilities, of which \$25.7 million and \$42.8 million were included within Accrued liabilities and Other long-term liabilities, respectively, on its condensed consolidated balance sheet. The initial ROU assets recognized were adjusted for accrued rent and facility-related restructuring liabilities as of the adoption date. The adoption of ASC 842 did not have a material impact on the Company's condensed consolidated statement of operations.

Under the modified retrospective approach, prior comparative financial information was not retrospectively adjusted. The Company elected the package of practical expedients which allows it to carry forward its historical lease evaluation and classification. In addition, the Company elected to exclude leases with terms of one year or less from its balance sheet and separately account for lease and non-lease components.

The Company's lease portfolio consists primarily of real estate facilities under operating leases. The Company determines if an arrangement is or contains a lease at inception. ROU assets and lease liabilities are recognized at commencement based on the present value of the future minimum lease payments over the lease term. The Company applies its incremental borrowing rate in determining the present value of the future minimum lease payments, as most of its leases do not provide an implicit rate. Certain of the Company's lease agreements include options to extend or renew the lease terms. Such options are excluded from the minimum lease obligation unless they are reasonably certain to be exercised. Operating lease expense is recognized on a straight-line basis over the lease term.

3. ACQUISITION

Polycom Acquisition

On July 2, 2018, the Company completed the acquisition of Polycom, Inc. ("Polycom") based upon the terms and conditions contained in the Purchase Agreement dated March 28, 2018 ("the Acquisition"). The Company believes the Acquisition will better position Plantronics with its channel partners, customers, and strategic alliance partners by allowing the Company to pursue additional opportunities across the UC&C category in both hardware end points and services.

At the closing of the Acquisition, Plantronics acquired Polycom for approximately \$2.2 billion with the total consideration consisting of (1) 6.4 million shares of the Company's common stock (the "Stock Consideration") valued at approximately \$0.5 billion and (2) approximately \$1.7 billion in cash net of cash acquired (the "Cash Consideration"), resulting in Triangle Private Holdings II, LLC ("Triangle"), Polycom's sole shareholder, owning approximately 16.0% of the Company's issued and outstanding common stock immediately following the Acquisition. The consideration paid at closing is subject to a working capital, tax and other adjustments. The Acquisition was accounted for as a business combination and the Company has included the financial results of Polycom in its condensed consolidated financial statements since the date of Acquisition.

During the quarter ended June 30, 2019, the Company finalized its allocation of the purchase price to the estimated fair value of the assets acquired and liabilities assumed. Since the Acquisition, the Company has recorded measurement period adjustments to reflect facts and circumstances in existence as of the acquisition date. These adjustments included deferred tax and tax liabilities of \$45.2 million, a working capital adjustment of \$8.0 million, and various other immaterial adjustments of \$1.4 million, resulting in a decrease to goodwill of approximately \$54.6 million.

Table of Contents

The allocation of the purchase price to the estimated fair value of the assets acquired and liabilities assumed at the Acquisition date is as follows:

(in thousands)	July 2, 2018	
ASSETS		
Cash and cash equivalents	\$	80,139
Trade receivables, net		165,798
Inventories		109,074
Prepaid expenses and other current assets		68,558
Property and equipment, net		79,497
Intangible assets		985,400
Other assets		27,237
Total assets acquired	\$	<u>1,515,703</u>
LIABILITIES		
Accounts payable	\$	80,653
Accrued payroll and related liabilities		44,538
Accrued expenses		147,167
Income tax payable		27,044
Deferred revenue		115,061
Deferred income taxes		94,618
Other liabilities		54,394
Total liabilities assumed	\$	<u>563,475</u>
Total identifiable net assets acquired		952,228
Goodwill		1,264,417
Total Purchase Price	\$	<u>2,216,645</u>

The estimate of fair value and purchase price allocation were based on information available at the time of closing the Acquisition. The Acquisition has resulted in \$1,264 million of goodwill, which represents the excess of the purchase price over the fair value of identifiable assets acquired and liabilities assumed.

The following table shows the fair value of the separately identifiable intangible assets at the time of acquisition and the period over which each intangible asset will be amortized:

(in thousands, except for remaining life)	Fair Value	Weighted Remaining Life of Intangibles
Existing technology	\$ 538,600	4.95
Customer relationships	245,100	5.46
Trade name/Trademarks	115,600	9.00
Backlog	28,100	0.25
Total amortizable intangible assets acquired	\$ 927,400	5.45
In-process technology	58,000	
Total acquired intangible assets	\$ 985,400	

Existing technology relates to products for voice, video and platform products. The Company valued the developed technology using the discounted cash flow method under the income approach. This method reflects the present value of the projected cash flows that are expected to be generated by the developed technology less charges representing the contribution of other assets to those cash flows. The economic useful life was determined based on the technology cycle related to each developed technology, as well as the cash flows over the forecast period.

Customer relationships represent the fair value of future projected revenue that will be derived from sales of products to customers of Polycom existing prior to the Acquisition. Customer relationships were valued using the discounted cash flow method as described above and the distributor method under the income approach. Under the distributor method, the economic profits generated by a distributor are deemed to be attributable to the customer relationships. The economic useful life was determined based on historical customer turnover rates.

Order backlog was valued separately from customer relationships using the discounted cash flow method under the income approach. This method reflects the present value of the projected cash flows that are expected to be generated by order backlog less costs to fulfill. The economic useful life was determined based on the period over which the order backlog is expected to be fulfilled.

Trade name/trademarks relate to the “Polycom” trade name and related trademarks. The fair value was determined by applying the profit allocation method under the income approach. This valuation method estimates the value of an asset by the profit saved because the company owns the asset. The economic useful life was determined based on the expected life of the trade name and trademarks and the cash flows anticipated over the forecasted periods.

The fair value of in-process technology was determined using the discounted cash flow method under the income approach. This method reflects the present value of the projected cash flows that are expected to be generated by in-process technology, less charges representing the contribution of other assets to those cash flows.

The Company believes the amounts of purchased intangible assets recorded above represent the fair values of and approximate the amounts a market participant would pay for, these intangible assets as of the date of the Acquisition.

For the three months ended June 30, 2019, the Company recognized \$45.3 million in amortization of acquired intangibles related to the Acquisition. The remaining weighted-average useful life of intangible assets acquired is 4.67 years.

Goodwill is primarily attributable to the assembled workforce, market expansion, and anticipated synergies and economies of scale expected from the integration of the Polycom business. The synergies include certain cost savings, operating efficiencies, and other strategic benefits projected to be achieved. Goodwill is not expected to be deductible for tax purposes.

The following unaudited pro forma financial information presents combined results of operations for each of the periods presented, as if Polycom had been acquired as of the beginning of fiscal year 2018. The unaudited pro forma information includes adjustments to amortization for intangible assets acquired, the purchase accounting effect on deferred revenue assumed and inventory acquired, restructuring charges related to the acquisition, and transaction and integration costs. For the quarter ended June 30, 2018, non-recurring pro forma adjustments directly attributable to the Polycom Acquisition included (i) the purchase accounting effect of deferred revenue assumed of \$36.6 million, (ii) the purchase accounting effect of inventory acquired of \$30.4 million, and (iii) Acquisition and Integration costs of \$19.6 million.

The unaudited pro forma information presented below is for informational purposes only and is not necessarily indicative of the Company's consolidated results of operations of the combined business had the Acquisition actually occurred at the beginning of fiscal year 2019 or of the results of its future operations of the combined business.

(in thousands)	Pro Forma (unaudited)	
	Three Months Ended June 30,	
	2018	
Total net revenues	\$	463,837
Operating loss		(118,148)
Net loss	\$	(107,385)

4. CASH, CASH EQUIVALENTS, AND INVESTMENTS

The following tables summarize the Company's cash and available-for-sale securities' amortized cost, gross unrealized gains, gross unrealized losses, and fair value by significant investment category recorded as cash and cash equivalents, short-term, or long-term investments as of June 30, 2019 and March 31, 2019 (in thousands):

June 30, 2019	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Cash & Cash Equivalents	Short-term investments (due in 1 year or less)
Cash	\$ 191,904	\$ —	\$ —	\$ 191,904	\$ 191,904	\$ —
Level 1:						
Mutual Funds	13,950	337	(118)	14,169	—	14,169
Total cash, cash equivalents and investments measured at fair value	<u>\$ 205,854</u>	<u>\$ 337</u>	<u>\$ (118)</u>	<u>\$ 206,073</u>	<u>\$ 191,904</u>	<u>\$ 14,169</u>
March 31, 2019	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Cash & Cash Equivalents	Short-term investments (due in 1 year or less)
Cash	\$ 202,509	\$ —	\$ —	\$ 202,509	\$ 202,509	\$ —
Level 1:						
Mutual Funds	13,420	197	(285)	13,332	—	13,332
Total cash, cash equivalents and investments measured at fair value	<u>\$ 215,929</u>	<u>\$ 197</u>	<u>\$ (285)</u>	<u>\$ 215,841</u>	<u>\$ 202,509</u>	<u>\$ 13,332</u>

As of June 30, 2019, and March 31, 2019, all of the Company's investments are classified as trading securities and are reported at fair value, with unrealized gains and losses included in current period earnings. For more information regarding the Company's deferred compensation plan, see Note 5, *Deferred Compensation*.

The Company did not incur any material realized or unrealized gains or losses in the three months ended June 30, 2019, and 2018.

There were no transfers between fair value measurement levels during the three months ended June 30, 2019, and 2018.

All financial assets and liabilities are recognized or disclosed at fair value in the financial statements or the accompanying notes thereto. Fair value is estimated by applying the following hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1

The Company's Level 1 financial assets consist of Mutual Funds. The fair value of Level 1 financial instruments is measured based on the quoted market price of identical securities.

Level 2

The Company's Level 2 financial assets and liabilities consist of derivative foreign currency contracts, interest rate swap and 5.50% Senior Notes. The fair value of Level 2 derivative foreign currency contracts and interest rate swap is determined using pricing models that use observable market inputs. For more information regarding the Company's derivative assets and liabilities, see Note 14, *Derivatives*. The fair value of Level 2 long-term debt and term loan facility are determined based on inputs that were observable in the market, including the trading price of the notes when available. For more information regarding the Company's 5.50% Senior Notes and term loan facility, see Note 9, *Debt*.

Level 3

The Company's revolving credit facility falls under the Level 3 hierarchy. The fair value of Level 3 revolving credit facility is determined based on inputs that were unobservable in the market. For more information regarding the Company's debt, refer to Note 9, *Debt*.

5. DEFERRED COMPENSATION

As of June 30, 2019, the Company held investments in mutual funds totaling \$14.2 million, all of which related to debt and equity securities that are held in rabbi trusts under non-qualified deferred compensation plans. The total related deferred compensation liability was \$14.7 million at June 30, 2019. As of March 31, 2019, the Company held investments in mutual funds totaling \$13.3 million. The total related deferred compensation liability at March 31, 2019 was \$13.5 million.

The securities are classified as trading securities and are recorded on the condensed consolidated balance sheets under "short-term investments". The liability is recorded on the condensed consolidated balance sheets under "other long-term liabilities" and "accrued liabilities".

6. DETAILS OF CERTAIN BALANCE SHEET ACCOUNTS

Accounts receivable, net:

(in thousands)	June 30, 2019	March 31, 2019
Accounts receivable	\$ 383,337	\$ 393,415
Provisions for promotions, rebates, and other	(61,857)	(50,789)
Provisions for doubtful accounts and sales allowances	(3,245)	(4,956)
Accounts receivable, net	<u>\$ 318,235</u>	<u>\$ 337,671</u>

As a result of the Acquisition, the Company assumed a financing agreement with an unrelated third-party financing company (the "Financing Agreement") whereby the Company offers distributors and resellers direct or indirect financing on their purchases of Polycom's products and services. In return, the Company agrees to pay the financing company a fee based on a pre-defined percentage of the transaction amount financed. In certain instances, these financing arrangements result in a transfer of the Company's receivables, without recourse, to the financing company. If the transaction meets the applicable criteria under Topic 860 and is accounted for as a sale of financial assets, the related accounts receivable is excluded from the balance sheet upon receipt of the third-party financing company's payment remittance. In certain legal jurisdictions, the arrangements that involve maintenance services or products bundled with maintenance at one price do not qualify as sale of financial assets in accordance with the authoritative guidance. Accordingly, accounts receivable related to these arrangements are accounted for as a secured borrowing in accordance with Topic 860, and the Company records a liability for any cash received, while maintaining the associated accounts receivable balance until the distributor or reseller remits payment to the third-party financing company.

During the quarter ended June 30, 2019, total transactions entered pursuant to the terms of the Financing Agreement were approximately \$59.1 million, of which \$27.3 million was related to the transfer of the financial asset. The financing of these receivables accelerated the collection of cash and reduced the Company's credit exposure. Included in "Accounts receivables, net" in the Company's condensed consolidated balance sheet as of June 30, 2019 was approximately \$42.7 million due from the financing company, of which \$22.3 million was related to accounts receivable transferred. Total fees incurred pursuant to the Financing Agreement were immaterial for the quarter ended June 30, 2019. These fees are recorded as a reduction to revenue on the Company's condensed consolidated statement of operations.

Inventory, net:

(in thousands)	June 30, 2019	March 31, 2019
Raw materials	\$ 82,575	\$ 34,054

Derivative liabilities	7,152	3,275
Accrued other	52,826	52,806
Accrued liabilities	<u>\$ 408,306</u>	<u>\$ 398,715</u>

The Company's warranty obligation is included as a component of accrued liabilities on the condensed consolidated balance sheets. Changes in the warranty obligation during the three months ended June 30, 2019 and 2018 were as follows:

(in thousands)	Three Months Ended June 30,	
	2019	2018
Warranty obligation at beginning of period	\$ 17,984	\$ 9,604
Warranty provision related to products shipped	4,837	2,562
Deductions for warranty claims processed	(5,001)	(2,634)
Adjustments related to preexisting warranties	(1,036)	200
Warranty obligation at end of period ⁽¹⁾	<u>\$ 16,784</u>	<u>\$ 9,732</u>

⁽¹⁾ Includes both short-term and long-term portion of warranty obligation; the prior table shows only the short-term portion included in accrued liabilities on the Company's condensed consolidated balance sheet. The long-term portion is included in other long-term liabilities.

Operating Leases:

(in thousands)	Balance Sheet Classification	June 30, 2019	March 31, 2019
ASSETS			
Operating right-of-use assets ⁽¹⁾	Other assets	\$ 51,447	\$ —
LIABILITIES			
Operating lease liabilities, current ⁽²⁾	Accrued liabilities	22,101	\$ —
Operating lease liabilities, long-term	Other liabilities	\$ 41,609	\$ —

⁽¹⁾ During the three months ended June 30, 2019, the Company made \$5.9 million in payments for operating leases included within cash provided by operating activities in its condensed consolidated statements of cash flows.

⁽²⁾ During the three months ended June 30, 2019, the Company recognized \$5.7 million in operating lease expense, net of \$1.4 million in sublease income, within its condensed consolidated statement of operations.

7. GOODWILL AND PURCHASED INTANGIBLE ASSETS

The carrying value of goodwill and other intangibles, excluding fully amortized intangible assets as of June 30, 2019, is set forth in the following table:

As of	June 30, 2019		March 31, 2019		Weighted Average Remaining Useful Life
(in thousands)	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization	
Amortizing Assets					
Existing technology	\$ 585,867	(116,295)	566,881	(86,301)	4.0 years
Customer relationships	245,437	(48,306)	245,481	(36,245)	4.6 years
Trade name	115,600	(12,845)	115,600	(9,633)	8.0 years
Non-amortizing assets					
In-process R&D	10,890	—	29,892	—	N/A
Total intangible assets	\$ 957,794	\$ (177,446)	\$ 957,854	\$ (132,179)	4.7 years
Goodwill	1,279,897	\$ —	1,278,380	\$ —	N/A

In the three months ended June 30, 2019, the Company placed in service \$19.0 million of in-process R&D which is being amortized on a straight-line basis.

As of June 30, 2019, expected amortization expense for other intangible assets for each of the next five years and thereafter is as follows:

in thousands	Amount
2020	\$ 137,290
2021	178,211
2022	163,928
2023	160,220
2024	78,808
Thereafter	61,891
	\$ 780,348

Note 8. COMMITMENTS AND CONTINGENCIES***Future Minimum Rental Payments***

Future minimum lease payments under non-cancelable operating leases as of June 30, 2019 were as follows:

(in thousands)	Operating Leases
2020 (remaining nine months)	19,147
2021	21,984
2022	19,084
2023	6,390
2024	1,547
Thereafter	619
Total lease payments	68,771
Less: Imputed Interest ⁽²⁾	(5,061)
Present value of lease liabilities	63,710

⁽¹⁾ The weighted average remaining lease term was 3.1 years as of June 30, 2019.

⁽²⁾ The weighted average discount rate was 4.9% as of June 30, 2019.

Unconditional Purchase Obligations

The Company purchases materials and services from a variety of suppliers and manufacturers. During the normal course of business and to manage manufacturing operations and general and administrative activities, the Company may enter into firm, non-cancelable, and unconditional purchase obligations for which amounts are not recorded on the consolidated balance sheets. As of June 30, 2019, the Company had outstanding off-balance sheet third-party manufacturing, component purchase, and other general and administrative commitments of \$406.4 million.

Other Guarantees and Obligations

In the ordinary course of business, the Company may provide indemnifications of varying scope and terms to customers, vendors, lessors, business partners, purchasers of assets or subsidiaries and other parties with respect to certain matters, including, but not limited to, losses arising out of the Company's breach of agreements or representations and warranties made by the Company, services to be provided by the Company, intellectual property infringement claims made by third parties or, with respect to the sale of assets of a subsidiary, matters related to the Company's conduct of business and tax matters prior to the sale. From time to time, the Company indemnifies customers against combinations of loss, expense, or liability arising from various triggering events relating to the sale and use of its products and services.

In addition, the Company also provides indemnification to customers against claims related to undiscovered liabilities, additional product liability, or environmental obligations. The Company has also entered into indemnification agreements with its directors, officers and certain other personnel that will require the Company, among other things, to indemnify them against certain liabilities that may arise by reason of their status or service as directors or officers of the Company or certain of its affiliated entities. The Company maintains director and officer liability insurance, which may cover certain liabilities arising from its obligation to indemnify its directors, officers and certain other personnel in certain circumstances. It is not possible to determine the aggregate maximum potential loss under these agreements due to the limited history of prior claims and the unique facts and circumstances involved in each particular claim. Such indemnification obligations might not be subject to maximum loss clauses. Historically, the Company has not incurred material costs as a result of obligations under these agreements and it has not accrued any liabilities related to such indemnification obligations in the condensed consolidated financial statements.

Claims and Litigation

On October 12, 2012, GN Netcom, Inc. ("GN") filed a complaint against the Company in the United States District Court for the District of Delaware ("Court"), alleging violations of Sections 1 and 2 of the Sherman Act, Section 3 of the Clayton Act, and tortious interference with business relations in connection with the Company's distribution of corded and wireless headsets. The case was assigned to Judge Leonard P. Stark. GN sought injunctive relief, total damages in an unspecified amount, plus attorneys' fees and costs, as well as unspecified legal and equitable relief. GN generally alleged that the Company's alleged exclusive dealing arrangements with certain distributors stifled competition in the relevant market. In July 2016, the Court issued a sanctions order against Plantronics in the amount of approximately \$4.9 million for allegations of spoliation of evidence. The case was tried to a jury in October 2017, resulting in a verdict in favor of the Company. GN filed a motion for new trial in November 2017, and that motion was denied by the Court in January 2018. The Company filed a motion for attorneys' fees in November 2017, and that motion was denied by the Court in January 2018. The Company also filed a motion for certain recoverable costs, and the parties stipulated to an amount of approximately \$0.2 million which GN paid the Company. On February 12, 2018, GN filed a notice of intent to appeal both the denial of the new trial motion and the Court's July 2016 spoliation order. The appellate court heard argument on the matter on December 11, 2018 and its decision was rendered on July 10, 2019. The Court denied GN's request for default judgment, but granted a new trial to include certain excluded testimony of one witness. The Company has filed a motion for rehearing en banc.

On September 13, 2018, Mr. Phil Shin filed on behalf of himself and others similarly situated, a purported Class Action Complaint in the United States District Court of the Northern District of California alleging violations of various federal and state consumer protection laws in addition to unfair competition and fraud claims in connection with the Company's BackBeat FIT headphones. The Company disputes the allegations and filed a motion to dismiss the Complaint in November 2018. Plaintiff filed a First Amended Complaint on December 14, 2018. The matter has now been resolved and the settlement is pending court approval. On May 24, 2019, Plaintiff filed an unopposed Motion for Preliminary Approval of Class Action Settlement. On June 17, 2019, the Court denied preliminary approval on the basis that the scope of the release was overly broad. An amended unopposed Motion for Preliminary Approval has been agreed on by Parties and is pending filing.

On January 23, 2018, FullView, Inc. ("FullView") filed a complaint in the United States District Court of the Northern District of California against Polycom, Inc. alleging infringement of two patents and thereafter filed a similar complaint in connection with the same patents in Canada. Polycom thereafter filed an *inter partes* reexamination of one of the patents, which was then appealed to the Federal Circuit Court. Oral argument occurred on March 6, 2019. Litigation in both matters in the United States and Canada, respectively, has been stayed pending the results of that appeal. Polycom also filed an inter partes review of the second patent on January 31, 2019, which is now pending institution. FullView had also initiated arbitration proceedings under a terminated license agreement with Polycom alleging that Polycom had failed to pay certain royalties due under that agreement. An arbitration hearing occurred on December 10, 2018, and the arbitration panel awarded \$374,475 to FullView. On April 29, 2019 the Federal Circuit rendered its opinion affirming the Patent Trial and Appeal Board ("PTAB") opinion regarding the *inter partes* reexamination. On May 8, 2019, Parties have filed a joint stipulated motion to extend the Case Management Conference to September 26, 2019 to request a stay the US litigation pending the IPR. On July 10, 2019, the PTAB denied institution of the IPR of the second patent. The Company plans to appeal that ruling.

On June 21, 2018, directPacket Research Inc. ("directPacket") filed a complaint alleging patent infringement by Polycom in the United States District Court for the Eastern District of Virginia, Norfolk Division. The Company disputes the allegations. Polycom filed a motion to change venue which was denied in October 2018. Polycom filed its Answer to the Complaint on October 18, 2018. On February 15, 2019, Polycom filed a Motion to Transfer Venue Pursuant to a Valid and Enforceable Forum Selection Clause to change venue to the Northern District of California. directPacket filed its Opposition on March 1, 2019 with Polycom filing its Reply on March 7, 2019. Discovery was ongoing. On April 29, 2019, the Court ordered supplemental briefing on the Motion to Transfer Venue, which was filed on May 20, 2019. On July 3, 2019 the Court granted the Motion to Transfer Venue to Northern District of California. An initial case management conference has been scheduled for October 2019.

On March 21, 2019, Performance Design Products ("PDP") filed a complaint against the Company alleging trademark infringement. The Company filed a motion to dismiss the complaint on April 12, 2019. PDP filed its opposition and a request for a preliminary injunction on May 10, 2019. The Company filed its Reply in Support of its Motion to Dismiss on July 9, 2019 and its Opposition for Preliminary Injunction on July 12, 2019 with hearing set for August 2, 2019. The Court granted the Company's Motion to Dismiss on July 15, 2019 with leave to amend by July 19, 2019 and PDP filed an amended complaint.

On July 31, 2019, Valyrian IP LLC filed a patent infringement action against the Company.

In addition to the specific matters discussed above, the Company is involved in various legal proceedings and investigations arising in the normal course of conducting business. Where applicable, in relation to the matters described above, the Company has accrued an amount that reflects the aggregate liability deemed probable and estimable, but this amount is not material to the Company's financial condition, results of operations, or cash flows. The Company is not able to estimate an amount or range of any reasonably possible loss, including in excess of any amount accrued, because of the preliminary nature of many of these proceedings, the difficulty in ascertaining the applicable facts relating to many of these proceedings, the variable treatment of claims made in many of these proceedings, and the difficulty of predicting the settlement value of many of these proceedings. However, based upon the Company's historical experience, the resolution of these proceedings is not expected to have a material effect on the Company's financial condition, results of operations or cash flows. The Company may incur substantial legal fees, which are expensed as incurred, in defending against these legal proceedings.

9. DEBT

The estimated fair value and carrying value of the Company's outstanding debt as of June 30, 2019 and March 31, 2019 were as follows:

(in thousands)	June 30, 2019		March 31, 2019	
	Fair Value	Carrying Value	Fair Value	Carrying Value
5.50% Senior Notes	\$ 500,185	\$ 494,321	\$ 503,410	\$ 493,959
Term loan facility	\$ 1,164,489	\$ 1,147,841	\$ 1,152,044	\$ 1,146,842

As of June 30, 2019, and March 31, 2019, the net unamortized discount, premium and debt issuance costs on the Company's outstanding debt were \$29.7 million and \$31.0 million respectively.

5.50% Senior Notes

In May 2015, the Company issued \$500.0 million aggregate principal amount of 5.50% senior notes (the "5.50% Senior Notes"). The 5.50% Senior Notes mature on May 31, 2023, and bear interest at a rate of 5.50% per annum, payable semi-annually on May 15 and November 15, commencing on November 15, 2015. The Company received net proceeds of \$488.4 million from the issuance of the 5.50% Senior Notes, net of issuance costs of \$11.6 million which are being amortized to interest expense over the term of the 5.50% Senior Notes using the effective interest method. A portion of the proceeds was used to repay all then-outstanding amounts under the Company's revolving line of credit agreement with Wells Fargo Bank and the remaining proceeds were used primarily for share repurchases.

The fair value of the 5.50% Senior Notes was determined based on inputs that were observable in the market, including the trading price of the 5.50% Senior Notes when available (Level 2).

The Company may redeem all or a part of the 5.50% Senior Notes, upon not less than 30 or more than a 60-day notice; however, the applicable redemption price will be determined as follows:

	Redemption Period Requiring Payment of:		Redemption Up To 35% Using Cash Proceeds From An Equity Offering ⁽³⁾ :	
	Make-Whole ⁽¹⁾	Premium ⁽²⁾	Date	Specified Price
5.50% Senior Notes	Prior to May 15, 2018	On or after May 15, 2018	Prior to May 15, 2018	105.500%

⁽¹⁾ If the Company redeems the notes prior to the applicable date, the redemption price is principal plus a make-whole premium equal to the present value of the remaining scheduled interest payments as described in the applicable indenture, together with accrued and unpaid interest.

⁽²⁾ If the Company redeems the notes on or after the applicable date, the price is principal plus a premium which declines over time as specified in the applicable indenture, together with accrued and unpaid interest.

⁽³⁾ If the Company redeems the notes prior to the applicable date with net cash proceeds of one or more equity offerings, the price is equal to the amount specified above, together with accrued and unpaid interest, subject to a maximum redemption of 35% of the aggregate principal amount of the respective note being redeemed.

In addition, upon the occurrence of certain change of control triggering events, the Company may be required to repurchase the 5.50% Senior Notes, at a price equal to 101% of their principal amount, plus accrued and unpaid interest to the date of repurchase. The 5.50% Senior Notes contain restrictive covenants that, among other things, limit the Company's ability to create certain liens and enter into sale and leaseback transactions; create, assume, incur, or guarantee additional indebtedness of its subsidiaries without such subsidiary guaranteeing the 5.50% Senior Notes on an unsecured unsubordinated basis; and consolidate or merge with, or convey, transfer or lease all or substantially all of the assets of the Company and its subsidiaries to another person.

Credit Facility Agreement

In connection with the acquisition of Polycom on July 2, 2018, the Company entered into a Credit Agreement with Wells Fargo Bank, National Association, as administrative agent, and the lenders party thereto (the "Credit Agreement"). The Credit Agreement replaced the Company's prior revolving credit facility in its entirety. The Credit Agreement provides for (i) a revolving credit facility with an initial maximum aggregate amount of availability of \$100 million that matures in July 2023 and (ii) a \$1.275 billion term loan facility priced at LIBOR plus 250bps due in quarterly principal installments commencing on the last business day of March, June, September and December beginning with the first full fiscal quarter ending after the Closing Date for the aggregate principal amount funded on the Closing Date multiplied by 0.25% (subject to prepayments outlined in the Credit Agreement) and all remaining outstanding principal due at maturity in July 2025. The Company borrowed the full amount available under the term loan facility of \$1.245 billion, net of approximately \$30 million of discounts and issuance costs which are being amortized to interest expense over the term of the agreement using the straight-line method which approximates the effective interest method for this debt. The proceeds from the initial borrowing under the Credit Agreement were used to finance the Acquisition, to refinance certain debt of Polycom, and to pay related fees, commissions and transaction costs. The Company has additional borrowing capacity under the Credit Agreement through the revolving credit facility which could be used to provide ongoing working capital and capital for other general corporate purposes of the Company and its subsidiaries. The Company's obligations under the Credit Agreement are currently guaranteed by Polycom and will from time to time be guaranteed by, subject to certain exceptions, any domestic subsidiaries that may become material in the future. Subject to certain exceptions, the Credit Agreement is secured by first-priority perfected liens and security interests in substantially all of the personal property of the Company and each subsidiary guarantor and will from time to time also be secured by certain material real property that the Company or any subsidiary guarantor may acquire. Borrowings under the Credit Agreement bear interest due on a quarterly basis at a variable rate equal to (i) LIBOR plus a specified margin, or (ii) the base rate (which is the highest of (a) the prime rate publicly announced from time to time by Wells Fargo Bank, National Association, (b) the federal funds rate plus 0.50% or (c) the sum of 1% plus one-month LIBOR) plus a specified margin. The Company must also pay (i) an unused commitment fee ranging from 0.200% to 0.300% per annum of the average daily unused portion of the aggregate revolving credit commitments under the Credit Agreement, and (ii) a per annum fee equal to (a) for each performance standby letter of credit outstanding under the Credit Agreement with respect to non-financial contractual obligations, 50% of the applicable margin over LIBOR under the revolving credit facility in effect from time to time multiplied by the daily amount available to be drawn under such letter of credit, and (b) for each other letter of credit outstanding under the Credit Agreement, the applicable margin over LIBOR under the revolving credit facility in effect from time to time multiplied by the daily amount available to be drawn for such letter of credit.

The Credit Agreement contains various restrictions and covenants, including requirements that the Company maintain certain financial ratios at prescribed levels and restrictions on the ability of the Company and certain of its subsidiaries to consolidate or merge, create liens, incur additional indebtedness, dispose of assets, consummate acquisitions, make investments and pay dividends and other distributions. The Credit Agreement includes the following financial covenants applicable to the revolving credit facility only: (i) a maximum consolidated secured net leverage ratio (defined as, with certain adjustments and exclusions, the ratio of the Company's consolidated secured indebtedness as of the end of the relevant fiscal quarter to consolidated net income before interest, taxes, depreciation, amortization, non-cash charges and certain other items ("EBITDA") for the period of four fiscal quarters then ended) of 3.50 to 1.00 as of the last day of any fiscal quarter ending during the period from December 29, 2018 through June 29, 2019; 3.25 to 1.00 as of the last day of any fiscal quarter ending during the period from June 30, 2019 through March 28, 2020; 3.00 to 1.00 as of the last day of any fiscal quarter ending during the period from March 29, 2020 through April 3, 2021; and 2.75 to 1.00 as of the last day of any fiscal quarter ending on or after April 4, 2021; and (ii) a minimum interest coverage ratio (defined as, with certain adjustments, the ratio of the Company's EBITDA to the Company's consolidated interest expense to the extent paid or payable in cash) of 2.75 to 1.00 as of the last day of any fiscal quarter ending on or after December 29, 2018. The Credit Agreement also contains customary events of default. If an event of default under the Credit Agreement occurs and is continuing, then the lenders may declare any outstanding obligations under the Credit Agreement to be immediately due and payable; provided, however, that the occurrence of an event of default as a result of a breach of a financial covenant under the Credit Agreement does not constitute a default or event of default with respect to any term facility under the Credit Agreement unless and until the required revolving lenders shall have terminated their revolving commitments and declared all amounts outstanding under the revolving credit facility to be due and payable. In addition, if the Company, any subsidiary guarantor or, with certain exceptions, any other subsidiary becomes the subject of voluntary or involuntary proceedings under any bankruptcy, insolvency or similar law, then any outstanding obligations under the Credit Agreement will automatically become immediately due and payable. Loans outstanding under the Credit Agreement will bear interest at a rate of 2.00% per annum in excess of the otherwise applicable rate (i) while a payment or bankruptcy event of default exists or (ii) upon the lenders' request, during the continuance of any other event of default.

The Company may prepay the loans and terminate the commitments under the Credit Facility Agreement at any time but will incur a 1% prepayment penalty if it refinances within 6 months of entering into this credit agreement. As of June 30, 2019, the Company has four outstanding letters of credit on the revolving credit facility for a total of \$0.8 million. The fair value of the term loan facility was determined based on inputs that were observable in the market (Level 2).

10. RESTRUCTURING AND OTHER RELATED CHARGES

Summary of Restructuring Plans

Q1 FY20 restructuring plan

During the quarter ended June 30, 2019, the Company initiated a post-Acquisition restructuring plan to streamline the global workforce of the combined company. The costs incurred to date under this plan comprises of severance benefits from reduction in force actions initiated by management and legal entity rationalization.

Fiscal Year 2019 restructuring plans

During the Fiscal Year 2019, the Company initiated post-Acquisition restructuring plans to realign the Company's cost structure, including streamlining the global workforce, consolidation of certain distribution centers in North America, and reduction of redundant legal entities, in order to take advantage of operational efficiencies following the Acquisition. The costs incurred to date under these plans have primarily comprised of severance benefits from reduction in force actions, facilities related actions initiated by management, and legal entity rationalization.

The Company's restructuring liabilities as of June 30, 2019 is as follows (amounts in thousands):

	As of March 31, 2019	Adoption of ASC 842 ⁽¹⁾	Accruals	Cash Payments	Adjustments	As of June 30, 2019

⁽¹⁾ *Includes adjustments to facilities-related liabilities upon adoption of ASC 842.*

11. COMPENSATION

Stock-based Compensation

The Company recognizes the grant-date fair value of stock-based compensation as compensation expense using the straight-line attribution approach over the service period for which the stock-based compensation is expected to vest. The following table summarizes the amount of stock-based compensation included in the condensed consolidated statements of operations:

(in thousands)	Three Months Ended June 30,	
	2019	2018
Cost of revenues	\$ 978	\$ 963
Research, development, and engineering	3,719	2,222
Selling, general, and administrative	8,207	4,965
Stock-based compensation included in operating expenses	11,926	7,187
Total stock-based compensation	12,904	8,150
Income tax benefit	4	(3,754)
Total stock-based compensation, net of tax	\$ 12,908	\$ 4,396

Long Term Incentive Plan

Prior to the Acquisition of Polycom, certain Polycom employees were granted incentive rights under the Polycom, Inc. 2016 Long-Term Incentive Plan ("2016 LTIP"). As of the date of Acquisition, Plantronics assumed the role of payer to participants of the 2016 LTIP through its payroll but is indemnified by Triangle for obligations under the 2016 LTIP. The Acquisition accelerated vesting under the 2016 LTIP at 75% of awards held by participants in service as of that date and triggered an initial amount due to such participants. The cash purchase price of the Acquisition was reduced by this initial obligation. The remaining 25% of awards will vest upon one-year anniversary of the Acquisition. Any future payments above the initial obligation under the 2016 LTIP, provided that the vesting requirements are satisfied, require Triangle to fund the Company in order to pay participants for any amount in excess of the purchase price reduction.

At July 2, 2018, \$7.9 million was recognized in Accrued liabilities assumed from Polycom and was paid in the second quarter of fiscal year 2019. The Company recognized an immaterial amount of compensation expense ratably through the first quarter of fiscal year 2020 in respect of the awards vesting on the one-year anniversary, which will be payable in the second quarter of fiscal year 2020. The amount due as of the date of the Acquisition is based on cash paid to Triangle that was distributed to its parents. Future distributions to its parents of cash made available to Triangle from the release of escrow accounts or the sale of shares issued in the transaction would trigger further compensation due to incentive rights holders under the plan. The Company is indemnified for any obligations in excess of the reduction to purchase price.

12. COMMON STOCK REPURCHASES

From time to time, the Company's Board of Directors (the "Board") has authorized programs under which the Company may repurchase shares of its common stock, depending on market conditions, in the open market or through privately negotiated transactions. Repurchased shares are held as treasury stock until they are retired or re-issued. On November 28, 2018, the Board approved a 1 million share repurchase program expanding its capacity to repurchase shares to approximately 1.7 million shares. As of June 30, 2019, there remained 1,369,014 shares authorized for repurchase under the existing stock repurchase.

For the periods ended June 30, 2019, and 2018, the Company did not repurchase any shares of its common stock.

The total value of shares withheld in satisfaction of employee tax obligations on the vesting of equity awards for the three months ended June 30, 2019, and June 30, 2018 were \$8.6 million and \$13.0 million, respectively. The amounts withheld were equivalent to the employees' minimum statutory tax withholding requirements and are reflected as a financing activity within the Company's condensed consolidated statements of cash flows. These share withholdings have the same effect as share repurchases by the Company as they reduce the number of shares that would have otherwise been issued in connection with the vesting of shares subject to the restricted stock grants.

13. ACCUMULATED OTHER COMPREHENSIVE LOSS

The components of accumulated other comprehensive income ("AOCI"), net of immaterial tax effects, are as follows:

(in thousands)	June 30, 2019	March 31, 2019
Accumulated unrealized gain (loss) on cash flow hedges ⁽¹⁾	\$ (11,243)	\$ (5,310)
Accumulated foreign currency translation adjustments	4,615	4,835
Accumulated unrealized loss on investments	—	—
Accumulated other comprehensive income (loss)	<u>\$ (6,628)</u>	<u>\$ (475)</u>

⁽¹⁾ Refer to Note 14, Derivatives, which discloses the nature of the Company's derivative assets and liabilities as of June 30, 2019 and March 31, 2019.

14. DERIVATIVES

Foreign Currency Derivatives

The Company's foreign currency derivatives consist primarily of foreign currency forward exchange contracts and option contracts. The Company does not purchase derivative financial instruments for speculative trading purposes. The derivatives expose the Company to credit risk to the extent the counterparties may be unable to meet the terms of the derivative instrument. The Company's maximum exposure to loss that it would incur due to credit risk if parties to derivative contracts failed completely to perform according to the terms of the contracts was equal to the carrying value of the Company's derivative assets as of June 30, 2019. The Company seeks to mitigate such risk by limiting its counterparties to large financial institutions. In addition, the Company monitors the potential risk of loss with any one counterparty resulting from this type of credit risk on an ongoing basis.

The Company enters into master netting arrangements with counterparties when possible to mitigate credit risk in derivative transactions. A master netting arrangement may allow each counterparty to net settle amounts owed between the Company and the counterparty as a result of multiple, separate derivative transactions. As of June 30, 2019, the Company had International Swaps and Derivatives Association ("ISDA") agreements with four applicable banks and financial institutions which contained netting provisions. Plantronics has elected to present the fair value of derivative assets and liabilities on the Company's condensed consolidated balance sheet on a gross basis even when derivative transactions are subject to master netting arrangements and may otherwise qualify for net presentation. For each counterparty, if netted, the Company would offset the asset and liability balances of all derivatives at the end of the reporting period. Derivatives not subject to master netting agreements are not eligible for net presentation. As of June 30, 2019, and March 31, 2019, no cash collateral had been received or pledged related to these derivative instruments.

The gross fair value of the Company's outstanding derivative contracts at the end of each period was as follows:

(in thousands)	June 30, 2019	March 31, 2019
Derivative Assets⁽¹⁾		
Non-designated hedges	\$ 86	\$ 327
Cash flow hedges	1,189	2,856
Total derivative assets	<u>\$ 1,275</u>	<u>\$ 3,183</u>
Derivative Liabilities⁽²⁾		
Non-designated hedges	\$ 731	\$ 39
Cash flow hedges	970	843
Interest rate swap	15,004	8,594
Accrued interest	9	7
Total derivative liabilities	<u>\$ 16,714</u>	<u>\$ 9,483</u>

⁽¹⁾ Short-term derivative assets are recorded in "other current assets" and long-term derivative assets are recorded in "deferred tax and other assets". As of June 30, 2019, the portion of derivative assets classified as long-term was immaterial.

⁽²⁾ Short-term derivative liabilities are recorded in "accrued liabilities" and long-term derivative liabilities are recorded in "other long-term liabilities". As of June 30, 2019, the portion of derivative liabilities classified as long-term was immaterial.

Non-Designated Hedges

As of June 30, 2019, the Company had foreign currency forward contracts denominated in Euros ("EUR"), British Pound Sterling ("GBP"), and Australian Dollars ("AUD"). The Company does not elect to obtain hedge accounting for these forward contracts. These forward contracts hedge against a portion of the Company's foreign currency-denominated cash balances, receivables, and payables. The following table summarizes the notional value of the Company's outstanding foreign exchange currency contracts and approximate U.S. Dollar ("USD") equivalent at June 30, 2019:

(in thousands)	Local Currency	USD Equivalent	Position	Maturity
EUR	€ 34,000	\$ 38,786	Sell EUR	1 month
GBP	£ 10,500	\$ 13,363	Sell GBP	1 month
AUD	A\$ 9,640	\$ 6,765	Sell AUD	1 month

Effect of Non-Designated Derivative Contracts on the Condensed Consolidated Statements of Operations

The effect of non-designated derivative contracts recognized in other non-operating income and (expense), net in the condensed consolidated statements of operations was as follows:

(in thousands)	Three Months Ended June 30,	
	2019	2018
Gain (loss) on foreign exchange contracts	\$ (289)	\$ 4,152

Cash Flow Hedges

Costless Collars

The Company hedges a portion of the forecasted EUR and GBP denominated revenues with costless collars. On a monthly basis, the Company enters into option contracts with a six to eleven-month term. Collar contracts are scheduled to mature at the beginning of each fiscal quarter, at which time the instruments convert to forward contracts. The Company also enters into cash flow forwards with a three-month term. Once the hedged revenues are recognized, the forward contracts become non-designated hedges to protect the resulting foreign monetary asset position for the Company.

The notional value of the Company's outstanding EUR and GBP option and forward contracts at the end of each period was as follows:

(in millions)	June 30, 2019		March 31, 2019	
	EUR	GBP	EUR	GBP
Option contracts	€82.6	£27.4	€76.8	£25.8
Forward contracts	€57.9	£20.8	€55.4	£18.0

The Company will reclassify all amounts accumulated in other comprehensive income into earnings within the next twelve months.

Cross-currency Swaps

The Company hedges a portion of the forecasted Mexican Peso ("MXN") denominated expenditures with a cross-currency swap. As of June 30, 2019, and March 31, 2019, the Company had foreign currency swap contracts of approximately MXN 93.2 million and MXN 149.7 million, respectively.

The following table summarizes the notional value of the Company's outstanding MXN currency swaps and approximate USD Equivalent at June 30, 2019:

	Local Currency	USD Equivalent	Position	Maturity
	(in thousands)	(in thousands)		
MX\$	\$ 93,170	\$ 4,691	Buy MXN	Monthly over 6 months

Interest Rate Swap

On July 30, 2018, the Company entered into a 4-year amortizing interest rate swap agreement with Bank of America, NA. The swap has an initial notional amount of \$831 million and matures on July 31, 2022. The swap involves the receipt of floating-rate interest payments for fixed interest rate payments at a rate of 2.78% over the life of the agreement. The Company has designated this interest rate swap as a cash flow hedge. The purpose of this swap is to hedge against changes in cash flows (interest payments) attributable to fluctuations in the Company's variable rate debt. The derivative is valued based on prevailing LIBOR rate curves on the date of measurement. The Company also evaluates counterparty credit risk when it calculates the fair value of the swap. The effective portion of changes in the fair value of the derivative is recorded to other comprehensive income (loss) on the accompanying balance sheets and reclassified into interest expense over the life of the underlying debt as interest on the Company's floating rate debt is accrued. The Company reviews the effectiveness of this instrument on a quarterly basis, recognize current period hedge ineffectiveness immediately in earnings and will discontinue hedge accounting if the Company no longer considers hedging to be highly effective. This hedge was fully effective at inception on July 30, 2018 and as of the three months ended June 30, 2019. During the three months ended June 30, 2019, the Company recorded a loss of \$0.7 million on its interest rate swap derivative designated as a cash flow hedge.

Effect of Designated Derivative Contracts on AOCI and Condensed Consolidated Statements of Operations

The following table presents the pre-tax effects of derivative instruments designated as cash flow hedges on accumulated other comprehensive income and the condensed consolidated statements of operations for the three months ended June 30, 2019 and 2018:

(in thousands)	Three Months Ended June 30,	
	2019	2018
Gain (loss) included in AOCI as of beginning of period	\$ (7,480)	\$ (1,693)
Amount of gain (loss) recognized in other comprehensive income ("OCI") (effective portion)	(6,704)	3,956
Amount of (gain) loss reclassified from OCI into net revenues (effective portion)	(1,359)	(249)
Amount of (gain) loss reclassified from OCI into cost of revenues (effective portion)	(104)	(79)
Amount of (gain) loss reclassified from OCI into interest expense (effective portion)	652	
Total amount of (gain) loss reclassified from AOCI to income (loss) (effective portion)	(811)	(328)
Gain (loss) included in AOCI as of end of period	\$ (14,995)	\$ 1,935

For the period presented prior to the first quarter of fiscal year 2020, the ineffective and excluded portion of the realized and unrealized gain or loss was included in other non-operating income (expense). As a result of adopting ASU 2017-12, beginning in the first quarter of fiscal year 2020, the excluded portion of such amounts is included in the same line item in which the underlying transactions affect earnings and the ineffective portion of the realized and unrealized gains or losses on derivatives is included as a component of accumulated other comprehensive income. During the three months ended June 30, 2019, the Company did not have an ineffective portion of its cash flow hedges. During the three months ended June 30, 2018, the Company recognized an immaterial loss on the ineffective portion of its cash flow hedges.

15. INCOME TAXES

The Company and its subsidiaries are subject to taxation in the U.S. and in various foreign and state jurisdictions. The Company's tax provision or benefit is determined using an estimate of its annual effective tax rate and adjusted for discrete items that are taken into account in the relevant period. The effective tax rates for the three months ended June 30, 2019 and 2018 were 14.4% and 5.5%, respectively.

For the three months ended June 30, 2019, the Company recognized a discrete \$11.6 million net tax benefit related to an intra-entity transfer of an intangible asset that will have a deferred future benefit, which increased our effective tax rate by 22.2%.

Table of Contents

On June 7, 2019, a Ninth Circuit panel reversed the United States Tax Court's holding in *Altera Corp. v. Commissioner*, and upheld the portion of the Treasury regulations issued under IRC Section 482 requiring related-party participants in a cost sharing arrangement to share stock-based compensation costs. As a result, the Company recorded a \$8.6 million discrete tax charge resulting from the cost sharing of prior stock-based compensation, partially offset by a reduction to the 2017 Tax Cuts and Jobs Act toll charge accrued in prior periods, which reduced our effective tax rate by 16.5%.

The Company's provision for income taxes also included excess tax benefits associated with employee equity plans of (\$2.5) million and \$2.8 million, which reduced our effective tax rate by 4.7 percentage points and 18.0 percentage points, for the three months ended June 30, 2019, and 2018, respectively.

The Company is subject to the examination of its income tax returns by the Internal Revenue Service and other tax authorities. Significant judgment is required in evaluating our uncertain tax positions and determining the Company's provision for income taxes. As of June 30, 2019, the Company had a total gross unrecognized tax benefits of \$36.9 million compared with \$12.8 million as of June 30, 2018. The increase is predominantly due to acquired uncertain tax benefits of Polycom, as well as a \$9.2 million increase in the current quarter from the cost sharing of prior stock-based compensation. If recognized, the gross unrecognized tax benefits would reduce the effective tax rate in the period of recognition.

16. COMPUTATION OF EARNINGS (LOSS) PER COMMON SHARE

Basic earnings (loss) per share is calculated by dividing net income (loss) associated with common shareholders by the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per share assumes the issuance of additional shares of common stock by the Company upon exercise of all outstanding stock options and vesting of restricted stock, if the effect is dilutive, in accordance with the treasury stock method or two-class method (whichever is more dilutive).

The following table sets forth the computation of basic and diluted earnings (loss) per common share for the three months ended June 30, 2019, and 2018:

(in thousands, except per share data)	Three Months Ended June 30,	
	2019	2018
Basic earnings (loss) per common share:		
Numerator:		
Net income (loss)	\$ (44,871)	\$ 14,471
Denominator:		
Weighted average common shares, basic	39,239	32,594
Dilutive effect of employee equity incentive plans	—	940
Weighted average common shares-diluted	39,239	33,534
Basic earnings (loss) per common share	\$ (1.14)	\$ 0.43
Diluted earnings (loss) per common share	\$ (1.14)	\$ 0.42
Potentially dilutive securities excluded from diluted earnings (loss) per common share because their effect is anti-dilutive	706	202

17. REVENUE AND MAJOR CUSTOMERS

The Company designs, manufactures, markets, and sells headsets for business and consumer applications. After the Acquisition, it also markets and sells voice, video, and content sharing UC&C solutions.

Table of Contents

With respect to headsets, the Company makes products for use in offices and contact centers, with mobile devices, cordless phones, and with computers and gaming consoles. Major headset product categories include Enterprise Headsets, which includes corded and cordless communication headsets, audio processors, and telephone systems; and Consumer Headsets, which includes Bluetooth and corded products for mobile device applications, personal computer, and gaming headsets. The Voice, Video, and Content Sharing Solutions include products like group series video and immersive telepresence systems, desktop voice and video devices, and universal collaboration servers.

Product revenue is largely comprised of sales of hardware devices, peripherals, and platform software licenses used in communication and collaboration in offices and contact centers, with mobile devices, cordless phones, and with computers and gaming consoles. Services revenue primarily includes support on hardware devices, professional, hosted and managed services, and solutions to the Company's customers.

The following table disaggregates revenues by major product category for the three months ended June 30, 2019 and 2018:

(in thousands)	Three Months Ended June 30,	
	2019	2018
Net revenues from unaffiliated customers:		
Enterprise Headsets	\$ 175,084	\$ 167,642
Consumer Headsets	43,566	53,667
Voice*	103,847	—
Video*	60,248	—
Services*	65,022	—
Total net revenues	\$ 447,767	\$ 221,309

*Categories were introduced with the acquisition of Polycom on July 2, 2018, and amounts are presented net of purchase accounting adjustments. Refer to Note 3, Acquisition, of the Condensed Consolidated Financial Statements for additional information regarding this acquisition.

For reporting purposes, revenue is attributed to each geographic region based on the location of the customer. Other than the U.S., no country accounted for 10% or more of the Company's net revenues for the three months ended June 30, 2019 and 2018. The following table presents net revenues by geography:

(in thousands)	Three Months Ended June 30,	
	2019	2018
Net revenues from unaffiliated customers:		
U.S.	\$ 224,827	\$ 113,986
Europe and Africa	116,979	63,590
Asia Pacific	74,848	26,871
Americas, excluding U.S.	31,113	16,862
Total international net revenues	222,940	107,323
Total net revenues	\$ 447,767	\$ 221,309

Two customers, ScanSource and Ingram Micro Group, accounted for 17.4% and 16.9%, respectively, of net revenues for the three months ended June 30, 2019. No customer accounted for more than 10% of net revenues for the three months ended June 30, 2018.

Two customers, Ingram Micro Group and ScanSource accounted for 29.1% and 17.5% respectively, of total net accounts receivable at June 30, 2019. Three customers, Ingram Micro Group, ScanSource, and D&H Distributors, accounted for 21.3%, 19.2%, and 10.9% respectively, of total net accounts receivable at March 31, 2019.

Revenue is recognized when obligations under the terms of a contract with the Company's customer are satisfied; generally, this occurs with the transfer of control of its products or services. Revenue is measured as the amount of consideration the Company expects to receive in exchange for transferring goods or providing services. The majority of the Company's business relates to physical product shipments, for which revenue is generally recognized once title and risk of loss of the product are transferred to the customer. The Company believes that transfer of title and risk of loss best represent the moment at which the customer's ability to direct the use of and obtain substantially all the benefits of an asset have been achieved. The Company has elected to recognize the cost for freight and shipping when control over products have transferred to the customer as an expense in Cost of Revenues when freight costs are included as part of the selling price. For products where freight is charged separately, it is recognized as revenue since the service is provided after title has transferred to the customer.

The Company's service revenue is recognized either over-time or at a point-in-time depending on the nature of the offering. Revenues associated with non-cancelable maintenance and support contracts comprise approximately 90% of the Company's overall service revenue and are recognized ratably over the contract term which typically ranges between one and three years. The Company believes this recognition period faithfully depicts the pattern of transfer of control for maintenance and support as the services are a series of distinct services available and delivered daily over the term. For certain products, support is provided free of charge without the purchase of a separate maintenance contract. If the support is determined to rise to the level of a performance obligation, the Company allocates a portion of the transaction price to the implied support obligation and recognize service revenue over the estimated implied support period which can range between one month to several years, depending on the circumstances. Revenues associated with Professional Services are recognized when the Company has objectively determined that the obligation has been satisfied, which is usually upon customer acceptance.

The Company's contracts with customers often include promises to transfer multiple products and services to a customer. Determining whether products and services are considered distinct performance obligations that should be accounted for separately versus together may require significant judgment. The Company allocates the transaction price of a contract, to each identified performance obligation based on stand-alone selling price ("SSP"). A fixed discount is always subject to allocation in this manner. If the transaction price is considered variable, the Company determines if the consideration is associated with one or many, but not all of the performance obligations and allocates accordingly. Judgment is also required to determine the stand-alone selling price ("SSP") for each distinct performance obligation. The Company derives SSP for its performance obligations through a stratification methodology and consider a few characteristics including consideration related to different service types, customer and geography characteristics. The Company uses a single amount to estimate SSP for items that are not sold separately, such as maintenance on term-based licenses. In instances where SSP is not directly observable, such as when the Company does not sell the product or service separately, the Company determines the SSP using information that may include market conditions and other observable inputs.

On occasion, the Company will fulfill only part of a purchase order due to lack of current availability for one or more items requested on an order. Its practice is to ship what is on hand, with the remaining goods shipped once the product is in stock which is generally less than one year from the date of the order. Depending on the terms of the contract or operationally, undelivered or backordered items may be canceled by either party at their discretion.

As of June 30, 2019, the Company's deferred revenue balance was \$196.0 million. As of March 31, 2019, the Company's deferred revenue balance was \$193.9 million. During the three months ended June 30, 2019, the Company recognized \$51.2 million in revenues that were reflected in deferred revenue at the beginning of the period.

The table below represents aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as of June 30, 2019:

(in millions)	June 30, 2019		
	Current	Noncurrent	Total
Performance obligations	\$ 143.7	\$ 56.6	\$ 200.3

Upon establishment of creditworthiness, the Company may extend credit terms to its customers which typically ranges between 30 and 90 days from the date of invoice depending on geographic region and type of customer. The Company typically bills upon product hardware shipment, at time of software activation or upon completion of services. Revenue may be recognized in advance of billings due to upfront payments for multiple year time-based software purchases, revenue allocations related to partial shipments, and the reassessment of contracts previously treated as leases under ASC 840. The balance of contract assets as of March 31, 2019 was \$2.4 million. None of the Company's contracts are deemed to have significant financing components.

Sales, value add, and other taxes collected concurrent with revenue producing activities are excluded from revenue.

Commercial distributors and retailers represent the Company's largest sources of net revenues. Sales through its distribution and retail channels are made primarily under agreements allowing for rights of return and include various sales incentive programs, such as back end rebates, discounts, marketing development funds, price protection, and other sales incentives. The Company has an established sales history for these arrangements and the Company records the estimated reserves at the inception of the contract as a reflection of the reduced transaction price. Customer sales returns are estimated based on historical data, relevant current data, and the monitoring of inventory build-up in the distribution channel. Revenue reserves represent a reasonable estimation made by management and are subject to significant judgment. Estimated reserves may differ from actual returns or incentives provided, due to unforeseen customer return or claim patterns or changes in circumstances. For certain customer contracts which have historically demonstrated variability, the Company has considered the likelihood of being under-reserved and have considered a constraint accordingly. Provisions for Sales Returns are presented within Accrued Liabilities in the Company's Consolidated Balance Sheets. Provisions for promotions, rebates, and other sales incentives are presented as a reduction of Accounts Receivable unless there is no identifiable right offset, in which case they are presented within Accrued Liabilities on its Consolidated Balance Sheets. See Note 6, *Details of Certain Balance Sheet Accounts* above for additional details.

For certain arrangements, the Company pays commissions, bonuses and taxes associated with obtaining the contracts. The Company capitalizes such costs if they are deemed to be incremental and recoverable. The Company has elected to use the practical expedient to record the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the entity otherwise would have recognized is one year or less. Determining the amortization period of costs related to obtaining a contract involves judgment. Capitalized commissions and related expenses, on hardware sales and services recognized at a point in time generally have an amortization period of less than one year. Maintenance-related performance obligations generally have an amortization period greater than one year when considering renewals. Capitalized commissions are amortized to Sales and Marketing Expense on a straight-line basis. The capitalized amount of incremental and recoverable costs of obtaining contracts with an amortization period of greater than one year are \$3.1 million as of June 30, 2019. Amortization of capitalized contract costs for the three months ended June 30, 2019 was immaterial.

18. SUBSEQUENT EVENTS

Dividends

On August 6, 2019, the Company announced that the Audit Committee had declared and approved the payment of a dividend of \$0.15 per share on September 10, 2019 to holders of record on August 20, 2019.

Quantitative and Qualitative Disclosures About Market Risk

The discussion of our exposure to market risk related to changes in interest rates and foreign currency exchange rates contains forward-looking statements that are subject to risks and uncertainties. Actual results could vary materially as a result of a number of factors including those discussed in Part I, "Item 1A. *Risk Factors*" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2019, filed with the SEC on May 17, 2019, which could materially affect our business, financial position, or future results of operations.

Except as described below, there have been no material changes in our market risk as described in our Annual Report on Form 10-K for the fiscal year ended March 31, 2019.

INTEREST RATE RISK

Our exposure to market risk for changes in interest rates relates primarily to our floating-rate interest payments under our \$1.275 billion term loan facility. In connection with the Acquisition, we entered into a Credit Agreement with Wells Fargo Bank, National Association, as administrative agent, and the lenders party thereto (the "Credit Agreement"). Borrowings under the Credit Agreement bear interest at a variable rate equal to (i) LIBOR plus a specified margin, or (ii) the base rate (which is the highest of (a) the prime rate publicly announced from time to time by Wells Fargo Bank, National Association, (b) the federal funds rate plus 0.50% or (c) the sum of 1% plus one-month LIBOR plus a specified margin.

On July 30, 2018, we entered into a 4-year amortizing interest rate swap agreement with Bank of America, NA as part of our overall strategy to manage our exposure to market risks associated with fluctuations in interest rates on the \$1.275 billion term loan facility. As a matter of policy, we only enter into transactions that we believe will be highly effective at offsetting the underlying risk, and we do not use derivatives for trading or speculative purposes. Our objective is to mitigate the impact of interest expense fluctuations on our profitability related to interest rate changes by minimizing movements in future debt payments with this interest rate swap.

The swap has an initial notional amount of \$831 million and matures on July 31, 2022. The swap involves the receipt of floating-rate interest payments for fixed interest rate payments over the life of the agreement. We have designated this interest rate swap as a cash flow hedge, the effective portion of changes in the fair value of the derivative is recorded to other comprehensive income (loss) on the accompanying balance sheets and reclassified into interest expense over the life of the agreement. We will review the effectiveness of this instrument on a quarterly basis, recognize current period hedge ineffectiveness immediately in earnings and will discontinue hedge accounting if we no longer consider hedging to be highly effective. For additional details, refer to Note 14, *Derivatives*, of the accompanying notes to condensed consolidated financial statements. During the three months ended June 30, 2019, we made payments of approximately \$0.7 million on our interest rate swap and recognized \$0.7 million within interest expense on the condensed consolidated statement of operations. As of June 30, 2019, we had an immaterial amount of interest accrued within accrued liabilities on the condensed consolidated balance sheet. We had an unrealized pre-tax loss of approximately \$15.0 million recorded within accumulated other comprehensive income (loss) as of June 30, 2019. A hypothetical 10% increase or decrease on market interest rates related to our outstanding term loan facility could result in a corresponding increase or decrease in annual interest expense of approximately \$0.8 million.

Interest rates were relatively unchanged in the three months ended June 30, 2019 compared to the same period in the prior year. In the three months ended June 30, 2019 and 2018 we generated interest income of \$0.3 million and \$1.5 million, respectively.

FOREIGN CURRENCY EXCHANGE RATE RISK

We are a net receiver of currencies other than the USD. Accordingly, changes in exchange rates, and in particular a strengthening of the USD, could negatively affect our net revenues and gross margins as expressed in USD. There is a risk that we will have to adjust local currency product pricing due to competitive pressures if there is significant volatility in foreign currency exchange rates.

The primary currency fluctuations to which we are exposed are the Euro ("EUR"), British Pound Sterling ("GBP"), Australian Dollar ("AUD"), Canadian Dollar ("CAD"), Mexican Peso ("MXN"), and the Chinese Renminbi ("RMB"). We use a hedging strategy to diminish, and make more predictable, the effect of currency fluctuations. All of our hedging activities are entered into with large financial institutions, which we periodically evaluate for credit risks. We hedge our balance sheet exposure by hedging EUR, GBP, and AUD denominated cash, accounts receivable, and accounts payable balances, and our economic exposure by hedging a portion of anticipated EUR and GBP denominated sales and our MXN denominated expenditures. We can provide no assurance that our strategy will be successful in the future or that exchange rate fluctuations will not materially adversely affect our business. We do not hold or issue derivative financial instruments for speculative trading purposes.

The impact of changes in foreign currency rates recognized in other income and (expense), net was immaterial in both the three months ended June 30, 2019 and 2018. Although we hedge a portion of our foreign currency exchange exposure, the weakening of certain foreign currencies, particularly the EUR and GBP in comparison to the USD, could result in material foreign exchange losses in future periods.

Non-designated Hedges

We hedge our EUR, GBP, and AUD denominated cash, accounts receivable, and accounts payable balances by entering into foreign exchange forward contracts. The table below presents the impact on the foreign exchange gain (loss) of a hypothetical 10% appreciation and a 10% depreciation of the USD against the forward currency contracts as of June 30, 2019 (in millions):

Currency - forward contracts	Position	USD Value of Net Foreign Exchange Contracts	Foreign Exchange Gain From 10% Appreciation of USD	Foreign Exchange Loss From 10% Depreciation of USD
EUR	Sell EUR	\$ 38.8	\$ 3.9	\$ (3.9)
GBP	Sell GBP	\$ 13.4	\$ 1.3	\$ (1.3)
AUD	Sell AUD	\$ 6.8	\$ 0.7	\$ (0.7)

Cash Flow Hedges

In the three months ended June 30, 2019, approximately 50% of our net revenues were derived from sales outside of the U.S. and denominated primarily in EUR and GBP.

As of June 30, 2019, we had foreign currency put and call option contracts with notional amounts of approximately €2.6 million and £27.4 million denominated in EUR and GBP, respectively. Collectively, our option contracts hedge against a portion of our forecasted foreign currency denominated sales. If the USD is subjected to either a 10% appreciation or 10% depreciation versus these net exposed currency positions, we could realize a gain of \$8.3 million or incur a loss of \$7.8 million, respectively.

The table below presents the impact on the Black-Scholes valuation of our currency option contracts of a hypothetical 10% appreciation and a 10% depreciation of the USD against the indicated open option contract type for cash flow hedges as of June 30, 2019 (in millions):

Currency - option contracts	USD Value of Net Foreign Exchange Contracts	Foreign Exchange Gain From 10% Appreciation of USD	Foreign Exchange Loss From 10% Depreciation of USD
Call options	\$ 135.9	\$ 0.7	\$ (7.2)
Put options	\$ 126.1	\$ 7.6	\$ (0.6)
Forwards	\$ 92.8	\$ 9.2	\$ (9.1)

Collectively, our swap contracts hedge against a portion of our forecasted MXN denominated expenditures. As of June 30, 2019, we had cross-currency swap contracts with notional amounts of approximately MXN \$93.2 million.

The table below presents the impact on the valuation of our cross-currency swap contracts of a hypothetical 10% appreciation and a 10% depreciation of the USD as of June 30, 2019 (in millions):

Currency - cross-currency swap contracts	USD Value of Cross-Currency Swap Contracts	Foreign Exchange (Loss) From 10% Appreciation of USD	Foreign Exchange Gain From 10% Depreciation of USD
Position: Buy MXN	\$ 4.7	\$ (0.4)	\$ 0.5

Controls and Procedures

(a) Evaluation of disclosure controls and procedures

Our management evaluated, with the participation of our Chief Executive Officer and our Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report to ensure that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 (i) is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and (ii) is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in internal control over financial reporting

On July 2, 2018, the Company completed its acquisition of Polycom. The Company is in the process of integrating the historical control over financial reporting of Polycom with the consolidated Company. In addition, the Company implemented controls related to the adoption of ASU 2016-05, *Leases* (Topic 842) and the related financial statement reporting. There have been no other changes in the Company's internal control over financial reporting during the period covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

PART II -- OTHER INFORMATION

LEGAL PROCEEDINGS

We are presently engaged in various legal actions arising in the normal course of business. We believe that it is unlikely that any of these actions will have a material adverse impact on our operating results; however, because of the inherent uncertainties of litigation, the outcome of any of these actions could be unfavorable and could have a material adverse effect on our financial condition, results of operations or cash flows. For additional information about our material legal proceedings, please see *Note 8, Commitments and Contingencies*, of the accompanying notes to the consolidated financial statements.

RISK FACTORS

You should carefully consider the risk factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2019, filed with the SEC on May 17, 2019 (the "Form 10-K"), each of which could materially affect our business, financial position, or future results of operations. Except as described below, there have been no material changes to the risk factors included in the Form 10-K.

The risks described here and in the Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial position, or future results of operations.

UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Share Repurchase Programs

The following table presents a month-to-month summary of the stock purchase activity in the first quarter of fiscal year 2020:

	Total Number of Shares Purchased ₁	Average Price Paid per Share ²	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ¹	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ³
April 1, 2019 to April 27, 2019	1,798 ⁴	N/A	—	1,369,014
April 28, 2019 to May 25, 2019	141,727 ⁴	N/A	—	1,369,014
May 26, 2019 to June 29, 2019	47,647 ⁴	N/A	—	1,369,014

¹ On November 28, 2018, our Board of Directors approved a 1 million shares repurchase program expanding our capacity to repurchase shares to approximately 1.7 million shares. We may repurchase shares from time to time in open market transactions or through privately negotiated transactions. There is no expiration date associated with the repurchase activity.

² "Average Price Paid per Share" reflects open market repurchases of common stock only.

³ These shares reflect the available shares authorized for repurchase under the expanded program approved by the Board on November 28, 2018.

⁴ Represents only shares that were tendered to us in satisfaction of employee tax withholding obligations upon the vesting of restricted stock.

OTHER INFORMATION

None.

Section 2: EX-31.1 (EXHIBIT 31.1)

Exhibit 31.1

Certification of the President and CEO

I, Joe Burton, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Plantronics, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Section 4: EX-32.1 (EXHIBIT 32.1)

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER
PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

I, Joe Burton, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that the Quarterly Report of Plantronics, Inc. on Form 10-Q for the three months ended June 30, 2019 fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934 and that information contained in such Quarterly Report on Form 10-Q fairly presents in all material respects the financial condition and results of operations of Plantronics, Inc.

By: /s/ Joe Burton
Name: Joe Burton
Title: President, Chief Executive Officer and Director
Date: August 6, 2019

I, Charles D. Boynton, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that the Quarterly Report of Plantronics, Inc. on Form 10-Q for the three months ended June 30, 2019 fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934 and that information contained in such Quarterly Report on Form 10-Q fairly presents in all material respects the financial condition and results of operations of Plantronics, Inc.

By: /s/ Charles D. Boynton
Name: Charles D. Boynton
Title: Executive Vice President and Chief Financial Officer
Date: August 6, 2019

This certification accompanies the Report pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 and shall not, except to the extent required by the Sarbanes-Oxley Act of 2002, be deemed filed by the Company for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference.

A signed original of this written statement required by Section 906 has been provided to the Company and will be retained by the Company and furnished to the Securities and Exchange Commission or its staff upon request.
